

CortexAI — Automated Data Science Report

Generated on: 2025-12-25 19:54:15

1. Executive Summary

Learnability Score: 90 / 100

Verdict: Strong ML potential

Best Model: RandomForestClassifier

Metric: f1_weighted

Best CV Score: 0.8199938079693879

2. Dataset Overview

| Metric | Value |
|---------------|----------------|
| Rows | 891 |
| Columns | 8 |
| Target Column | Survived |
| Task Type | classification |

3. Feature Schema

| Type | Columns |
|-------------|----------------------|
| Numeric | Age, Fare |
| Ordinal | Pclass, SibSp, Parch |
| Categorical | Sex, Embarked |
| ID Columns | PassengerId |

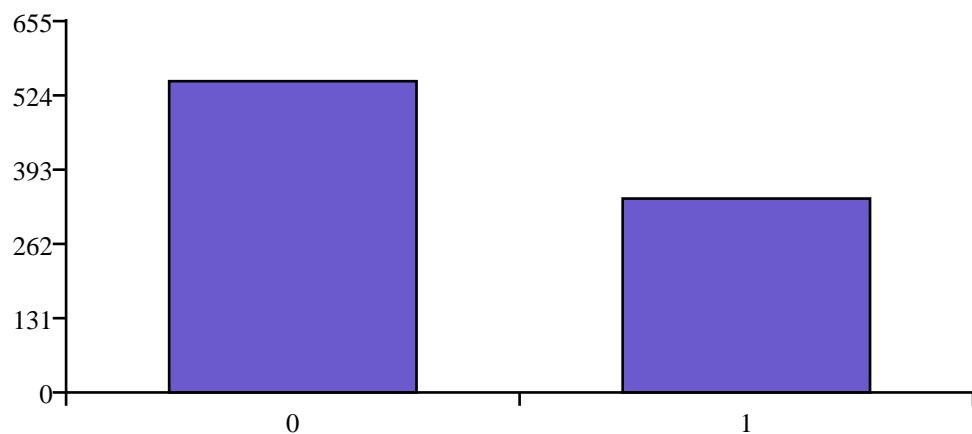

4. Data Cleaning Summary

| Aspect | Details |
|----------------------|---|
| ID Columns Removed | PassengerId |
| Missing Values Fixed | {'Age': 'filled with median (28.0)', 'Embarked': 'filled with mode (S)'} |
| Type Casting | {'Age': 'numeric', 'Fare': 'numeric', 'Pclass': 'ordinal', 'SibSp': 'ordinal', 'Parch': 'ordinal', 'Sex': 'categorical', 'Embarked': 'categorical'} |
| Final Dataset Shape | (891, 8) |

5. Exploratory Data Analysis

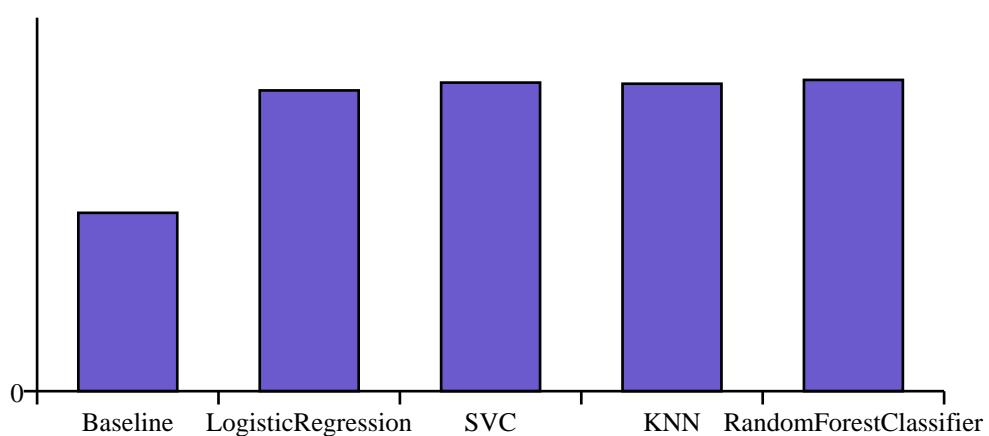

- Target distribution: {0: 0.62, 1: 0.38}
- Fare is highly skewed
- Sex shows strong relationship with target
- Embarked shows strong relationship with target

Target Distribution

6. Model Training Results

Model Cross-Validation Performance

7. Recommendations & Risks

- Models significantly outperform the baseline (+0.35).
- Dataset contains a diverse and informative feature set.
